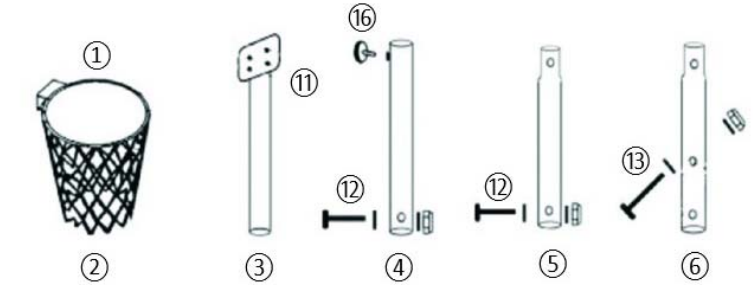
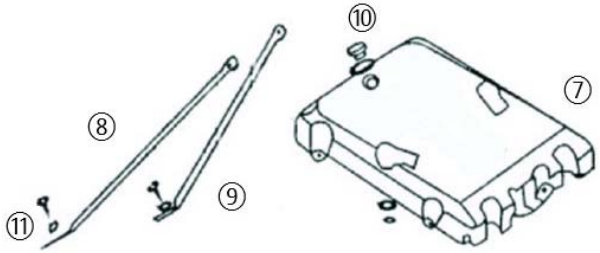
ACTIVE INTENT
PLAY

JUNIOR NETBALL STAND

OWNER'S MANUAL

Parts:





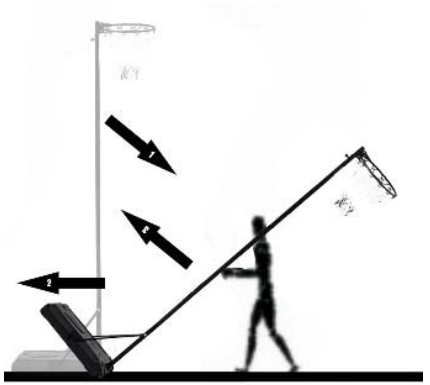
No.	Name	Qty	No.	Name	Qty
1	Rim	1	9	Bracket R	1
2	Net	1	10	Plastic cap	1
3	Pole 1	1	11	M8 x 20mm bolt & washer & nut	6
4	Pole 2	1	12	M8 x 50mm bolt & washer & nut	2
5	Pole 3	1	13	M8 x 55mm bolt & washer & nut	1
6	Pole 4	1	14	Wheel	2
7	Base	1	15	Shaft	1
8	Bracket L	1	16	Plastic knob	1

Tools required: Adjustable wrench (not included)

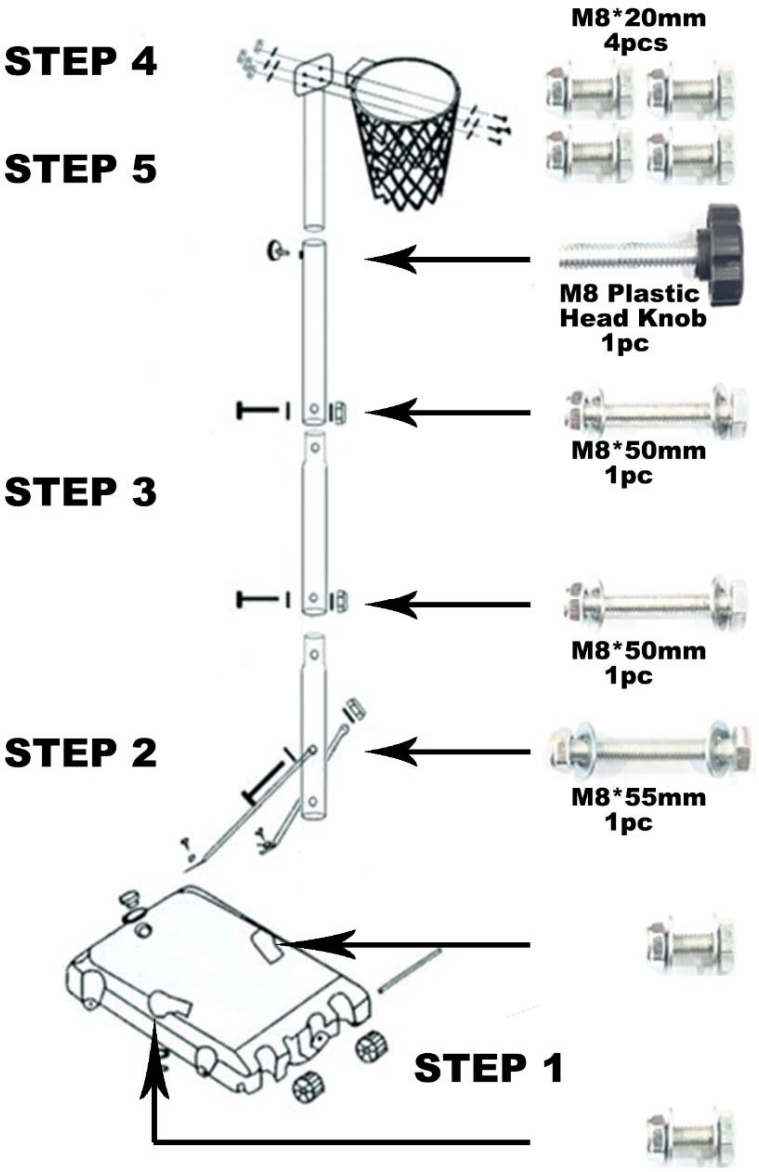
- While moving the system, do not allow anyone to stand or sit on the base or have added ballasting on the base
- Do not leave the system unsupervised or play on the system when the wheels are engaged for moving
- Use caution when moving the system across uneven surfaces as the system may tip over
- Use extreme caution if placing the system on a sloped surface as the system may tip over more easily
- See the instruction manual for proper installation and maintenance

MOVING THE SYSTEM

1. While holding the pole rotate the netball stand forward until the wheels engage with the ground
2. Move the netball stand to the desired location. Carefully rotate the netball stand upright
3. Check the system for stability



- Do not allow children to move or adjust the system
- During play, do not wear jewellery (rings, watches, necklaces, etc) Objects may become entangled in the net.
- The surface beneath the base must be smooth and free of gravel or other sharp objects. Punctures cause leakage and could cause the system to tip over.
- Keep organic material away from the pole base. Grass, litter, etc could cause corrosion and/or deterioration.
- Check the pole system for signs of corrosion (rust, pitting, chipping) and repaint with exterior enamel paint. If rust has penetrated through the steel anywhere, replace the pole immediately.
- Check the system before each use for proper ballast, loose hardware, excessive wear and signs of corrosion and repair before use.
- Check the system before each use for instability
- Do not use the system during windy and/or severe weather conditions; the system may tip over. Place the system in the storage position and/or in an area protected from the wind and free from personal property and/or overhead wires.
- Never play on damaged equipment
- When moving the system, use caution to keep the mechanism from shifting
- Do not allow the water in the tank to freeze. During sub-freezing weather add 2 gallons of non-toxic antifreeze, sand or empty the tank completely and store. (do not use salt)



ASSEMBLY INSTRUCTION

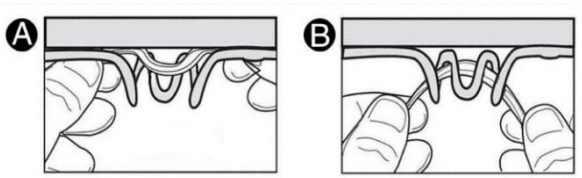
Step 1. Putting the shaft ⑮ through the base of the bottom pole ⑥ and the wheels ⑭.

Step 2. Fix the bracket ⑧, ⑨ into the base ⑦ with 2pcs of M8*20mm bolts. And attach onto the bottom pole ⑥ with 1pc M8*55mm bolt.

Step 3. Build up the stand pole ⑤ onto the stand pole ⑥ with 1pc M8*50mm bolts.

Step 4. Fix the net ② to the rim ①, and fix the rim ① to the top pole ③ using 4pcs M8*20mm bolts.

How to fix the net to the rim:



Step 5. Attach the top pole ③ to the middle pole ④, and lock the top pole ③ with the plastic head knob ⑯ with desired height with the holes on the top pole.

SAFTEY INSTRUCTIONS

To ensure safety, do not attempt to assemble this system without following the instructions carefully. Check the entire box and inside all packing material for parts and/or additional instruction materials. Before beginning assembly, read the instructions and identify the parts using the hardware identifier and parts list in this document. Proper, complete assembly, use and supervision are essential for the proper operation and will reduce the risk of accident or injury. A high probability of serious injury exists if this system is not installed, maintained and operated properly.

- If using a ladder during assembly, use extreme caution.
- Two (2) capable adults are recommended for this operation
- Check base regularly for leakage. Slow leaks could cause the system to tip over unexpectedly.
- Seat the pole sections properly (if applicable). Failures to do so could allow the pole sections to separate during play and/or transport of the system.
- Climate, corrosion, or misuse could result in system failure.
- This equipment is intended for home recreational use only and NOT excessive competitive play
- The life of your netball stand depends on many conditions. The climates, placement of the pole, location of the pole, exposure to corrosives such as pesticides, herbicides, or salts are all important.

WARNING

Owner must ensure that all players know and follow these rules for the safe operation of the system

- Do not slide, climb shake or play on the base and/or pole.
- After assembly is complete, fill the system completely with water or sand (if using water we recommend a small amount of anti freeze to be added). Never leave the system in an upright position without filling the base with weight, as system may tip over causing injuries
