KNOW YOUR TOASTER

Control panel:

For the first use

As there is manufacturing residue or oil remained in the toaster or heat element, it usually will emit the odor for the first use. It is normal and will not occur after several times use, for the first use it is suggested to operate according to the below steps, except without bread. Then let the toaster cool down and begin toasting the first slice.

Operation:

1. Insert regular bread slice into the bread slot, which can be inserted with two slices at most each time.

Note: Make sure the crumb tray is completely positioned in place before use.

2. Plug the power cord into the outlet.

3. Set color control knob to your desired color. There is 6-position level, the lowest “1” is for light and the highest “6” is for dark. The bread slice can be toasted to golden color at the middle position.

Note:

1). Toasting color for one slice is darker than that for two bread slices at the same level.

2). If toasting continuously, toasting color for the latter bread is darker than that for the anterior bread at the same level.

4. Lower carriage handle down vertically until it is latched in place, the indicator of **Cancel** will be illuminated, and the appliance will begin toasting at once.

Note: The carriage handle can only be latched when the appliance is plugged in.

5. Once the bread has been toasted to the preset color, the carriage handle will automatically pop up. Also you can uplift the carriage handle a little to remove the bread readily.

Note: During toasting, you may also observe the toasting color. If it is satisfactory, you can press the Cancel button to cancel the operation at any time, but never lift carriage handle to cancel toasting.

6. If you want to toast frozen bread, firstly set color control knob to your desired color, and then lower carriage handle down vertically until it is latched in place. then press **Defrost** button and the indicator of **Defrost** button will be illuminated, In this mode bread will be toasted to your desired color.

7. If you want to warm cold toasted bread, firstly lower carriage handle vertically until it is latched in place, and then press the **Reheat** button and the indicator of **Reheat** button will be illuminated, In this mode toasting time is fixed, so long as time runs over, the carriage handle will automatically spring up and end up the reheating process.

Caution:

1. Remove all protective wrappings prior to toasting.

2. If toaster starts to smoke, Press **Cancel** to stop toasting immediately.

3. Avoid toasting the food with extremely runny ingredients such as butter.

4. Never attempt to remove bread jammed in the slots without unplugging the toaster from the electrical outlet first. Be sure not to damage the internal mechanism or heating elements when removing bread.

5. The bread slot is only applicable for toasting regular bread slice.

6. In order to achieve uniform color we recommend that you should wait minimum 30s between each toasting so that color control can reset automatically.

Cleaning and maintenance:

1. Before cleaning, unplug from the appliance and let the appliance cool down completely.
2. Wipe the outside with soft dry cloth, never use metal polish.
3. Pull out crumb tray on bottom of toaster and empty it. If toaster is used frequently, accumulated bread crumbs should be removed at least once a week. Make sure the crumb tray is completely closed before using the toaster again.
4. When not use or storage, the power cord may be wound under the bottom of toaster.
