IMPORTANT SAFEGUARDS

Caution

For safety reasons and to avoid damage to the appliance or injuries to people, please follow all the safety instructions below. Ignoring safety warnings may result in injuries.

This appliance does not take into consideration the following situations:

- Use by children or disabled people without supervision;
 - children treating it as a toy.
1. Read all instructions.
 2. This appliance is for household use only. Do not use outdoors.
 3. This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children unless they are older than 8 and supervised. Keep the appliance and its cord out of reach of children aged less than 8 years.
 4. Unplug from outlet when not in use and before cleaning. Allow to cool before cleaning.
 5. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
 6. Children should be supervised to ensure that they do not play with the appliance
 7. The use of accessory attachments not recommended by the appliance manufacturer may cause injury.
 8. Please turn off and unplug the appliance before cleaning, maintenance or relocation and whenever it is not in use.

IMPORTANT SAFEGUARDS

Caution

9. Do not let cord hang over edge of table or counter, or touch hot surfaces.
10. Do not place on or near a hot gas or electric burner, or in a heated oven.
11. Extreme caution must be used when moving an appliance containing hot food, water or other hot liquids.
12. Do not use the appliance for other than intended use.
13. Lift and open cover carefully to avoid scalding, and allow water to drip into unit.
14. To disconnect turn the control to OFF, then remove plug from wall outlet.
15. Containers are designed for use with this appliance only. They must never be used on a range top. Do not set a hot container on a wet or cold surface. Do not use a cracked container.
16. Do not immerse the appliance in water or any other liquid.
17. This appliance is intended to be used in household and similar applications such as:
 - staff kitchen areas in shops, offices and other working environments;
 - farm houses;
 - by clients in hotels, motels and other residential type environments;
 - bed and breakfast type environments.
18. Children shall not play with the appliance. The surfaces of the appliance are liable to get hot during use.
19. To protect against electrical shock, do not immerse cord, plug or appliance in water or other liquid.
20. The heating element surface is subject to residual heat after use, do not touch.
21. Warning: Misuse may cause potential injury

IMPORTANT SAFEGUARDS

Caution

22. Do not touch hot surfaces. Use handles or knobs. Use potholders when removing cover or handling hot containers.
23. Do not place on or near a hot gas or electric burner, or in a heated oven.

| 1 | Inner Pot |
| 2 | Handle |
| 3 | Keep Warm Light |
| 4 | Lid |
| 5 | Outer Body |
| 6 | Indicator Light |
| 7 | Operating Switch |

Product Specifications

| Model No. | Rated voltage | Rated frequency | Rated power | Capacity | Cooking method |
|-------------|--|-----------------|--|----------|----------------|
| SRO8316 | 220-240V~ | 50/60Hz | 450-536W | 2.5L | Direct heating |
| Accessories | Spoon  | | Measuring Cup  | | |

Operating

1. Measure the desired amount of rice with the measuring cup supplied with this rice cooker. Rinse the rice several times until the water in the bowl becomes relatively clear.

- One cup of rice weight 0.18L (About 150g)
- **DO NOT** rinse rice in the inner cooking pot as damage may occur to the special surface or deformation creating poor contact to the heating plate.

2. Put the rice into the inner pot and water up to the level which corresponds to the measure of rice used.

- The line on the pot is water line. The right line corresponds to litres of rice. The left line corresponds to cups of rice.
- The water line on the cooking pot is a standard guide, it can be adjusted depending on your taste.
- Pour one more cup of water than water mark when cooking 8-10 cups of South Asian rice to get the best performance.
- **NEVER** add water higher than the maximum water line.

3. Wipe any excess water from the outside of the inner pot, install the pot into the cooker, turn it slightly from left to right to ensure that the pot makes good contact with the heating plate, and levels the rice inside the pot.

4. When ready to cook, Connect the power supply cord to the cooker first, then plug into an AC wall outlet.

- **DO NOT** plug the cord in until cooking is ready.

Operating

5. Press down the "cooking" switch. The rice will start to cook. The "Cook" Light will illuminate.
NOTE: You must push down the "Cook" switch to start the cooking process and ensure the appliance is connected to a mains outlet.
 If the switch is not pushed down, the "Warm" light will light up after 1-2 minutes. The cooker will be in keep warm function.

6. When the cooking has finished. the "cooking" switch will pop up and a click will be heard. At the same time, the cooking light will go out and the keep warm light will illuminate.
- After the cooking cycle ends, keep the lid closed for a further 15 minutes.
 - Remove the lid and stir the rice well with a plastic or wooden spoon. Serve the rice immediately or leave on the keep warm function until ready.

Caution: It is recommended once the cooking has completed that the cord is unplugged before serving.

Warning: Only use the spoon supplied with this cooker. Do not use a metal scoop or an metal utensil as to avoid scratching the non-stick coating.

Safeguards

1. The power cord must properly plugged into an earthed wall outlet.
2. Always keep the cooker unplugged when not in use or without cooking pot.
3. Do not place the cooker on a wet or unstable place, or near a fire. heating range, if not, the cooker will deform or malfunction.
4. In order to avoid deforming, do not run the pot with hard objects, or heat the pot on other stove. Never use other container instead of pot to cook.
5. Do not cover the cooker with a cloth; this may warp or discolor the outer lid.
6. The steam vent is very hot during cooking, keep face and hands away from outer lid and steam vent.
7. To protect against electric shock, do not immerse the appliance and electric cord in water or any liquid, or do not allow any liquid to fall on the electric parts.
8. The power cord must be replaced by the appliance manufacturer when it is damaged.

Cleaning And Maintenance

1. Before cleaning, first switch off the appliance and then disconnect the power plug from the power outlet.
2. Wash the Inner pot tray in warm and soapy water using a sponge or cloth and rinse thoroughly. Wipe dry. Do not clean with any abrasive brushes to avoid damaging the non-stick coating.
3. Occasionally rice grains or other residue may stick onto the heating plate. Ensure a proper contact is made with the Inner pot and rub the grains/residues away from the heating plate and then wipe clean.

Troubleshooting
