1. This Night Light contains a rechargeable battery, which is recharged using the USB charge lead supplied.
2. This Night Light has 7 variable LED colors, the light colors can be selected according to personal preference.

Specifications:

Model	LJC-111
Power Consumption	0.4W
Rated Voltage	DC5V 1000mA
Battery Capacity	1200mAh

SAFETY WARNINGS

- This product is not intended for use by children under the age of 5 years old.
- Children 3 – 5 years old can only use the product under adult supervision.
- Children less than 3 years old must not use the product and must be supervised to ensure they do not play with the product as the assembly has small parts which could present a choking hazard if removed.
- Never place in a child's cot or bed.
- Never attempt to disassemble the base of the product, there are no user serviceable parts contained within.
- Ensure the product is not exposed to direct heat (ie do not place in close proximity to a heater / oven etc).
- Do not leave exposed to direct sunlight for extended periods.
- Do not use in wet areas such as bathrooms.
- Never immerse in liquids, or subject to splashing.
- Not intended for outdoor use.
- If the product emits excessive smell or becomes very hot during use or charging, discontinue use.
- Only use the charge lead supplied with the product at the time of purchase.

CHARGING

1. Invert the base of the product to expose the underside.
2. Remove the rubber cover / plug over the charge port connector.
3. Carefully insert the charge lead connector, ensuring correct orientation. NOTE: DO NOT force the connector to make fitment, if more than a gentle force is required to be applied then the connector / charge port may be incorrectly orientated, try repositioning 180degrees.
4. Connect the USB portion of the charge lead to a standard USB outlet (external power source / laptop etc).
5. If connected correctly, the red indicator light will flash on/ off. Charging will take 3 – 4 hours. The indicator light will stop flashing once the battery is fully charged.
6. Please ensure that the night light is disconnected from the power source /charge lead once fully charged.

INSTRUCTIONS FOR USE

1. When using the night light for first time, please ensure it reaches full charge, approximately 3-4 hours. (See CHARGING section on previous page).

When fully charged, the night light will run for approximately 10-12 hours on warm white and approximately 10 hours on one of the variable color lights.

2. Power switch: Press the power button on the base of the light, the warm white light will turn on automatically.
3. LED color modes: the warm white light will turn on when the power button is pressed (as above). Pat the bottom of the night light once to switch to the color changing mode, the color will gradually change every 3 seconds. To choose one color to stay on, wait for the desired color and pat the bottom of the night light once more, the color changing will stop. Pat the bottom of the night light once more to turn off. To turn the warm white light on again pat the bottom of the night light to recommence the above cycle.
