## INSTRUCTION MANUAL

### MICROWAVE TOASTIE MAKER

*Perfect for sandwiches, toasties, panini's & more!*

---

**AFTER SALES SUPPORT**

  0800 422 274

## WARNING

TO BE USED for MICROWAVE OVENS ONLY

DO NOT use the product without food

ALWAYS place in the middle of the turntable

DO NOT immerse in water immediately after use

DO NOT use metal utensils on non-stick surface

DO NOT allow use by children or the impaired/infirm

ENSURE to place an insulating mat underneath the unit when placing on a table or supporting surface.

ALWAYS handle with insulated oven mitts

STOP USE if the product is damaged.

ALWAYS ENSURE metal plates are fitted correctly inside the silicone cover.

(For Microwave's above 1100W, Heat setting **MUST** be used in **MEDIUM** only)

## NOTE

Odour may be noticeable when used for the first time. Please clean the unit in soapy warm water, rinse then dry, prior to first use.

**CAUTION:** The plates and food contents get **VERY** hot during use, care must be taken when handling and when removing the outer clamps. We strongly recommend the use of oven gloves / mitts or a thermally insulated material.

## KEY FEATURES

- Soft silicone case for safer handling
- Advanced microwave-safe composite alloy
- Non-Stick Surface

## HOW IT WORKS

- Advanced microwave-safe composite alloy absorbs thermal energy, rapidly rising above 200 degrees C in 2-3 minutes
- Cooks FAST and just like a hot plate or pan, whilst also allowing the microwave to cook from inside

## FOR BEST RESULTS

- Set microwave between 700W to 1000W  
800W=3MINS , 1000W=2.5MINS  
(For Microwave's above 1100W make sure to keep the heat setting to medium only)
  - Spread butter or margarine on the outside bread surface for extra golden results
  - Place the food/sandwich into the Toastie maker
  - Clamp both ends
  - Cook for between 2-3 minutes according to taste/fillings
- (If bottom side is not grilled, flip the toastie maker & microwave it for another 1 minute)

## WASHING INSTRUCTIONS

For first time use, clean the unit gently with warm soapy water.

Allow the unit to completely dry before using the product.

After use, allow the unit to cool down before washing. Continue following this process.

Always use soft cloth to clean the product, as using scouring pads may damage the non-stick coating.

## NOTE

Always use safety equipment or oven mitts when the grill plates are hot
