warnings

## Important safety information

### General instructions:

1. You are personally responsible for the safety of your baby at all times.
2. Never place your baby on your lap when driving.
3. Do not use second-hand products where the history is unknown.
4. Replace the carrier after an accident.
5. Read this instruction manual carefully and keep it safe for future reference.

**WARNING:** Do not make any changes to the carrier whatsoever, as this could affect the performance of the car seat and render it unsafe.

### Infant carrier maintenance instructions

1. The cover, cushions and belt pads of the infant carrier can be removed in order for these to be cleaned. They can be machine-washed. The plastic edge can be cleaned with water, soap and a soft cloth.
2. If the cover needs to be replaced at any time, only use the cover provided by original manufacturer.
3. The infant carrier must undergo regular maintenance. Do not use lubricants or aggressive cleaning agents.

**WARNING:** Never place the infant carrier on elevated surface (such as a table or chair).

**WARNING:** The infant carrier only can be installed in a rear-facing position in the car.

- Never leave your baby unattended.
- Always secure your baby with the harness belt.
- Before every use, make sure the harness is not damaged or twisted.
- Make sure you can fit no more than one finger between the harness and your baby (1cm).
- Only use the head cushion of the infant carrier when the shoulder belts are in the lowest position.

### warnings

- Always check to make sure the infant carrier can be installed properly in your car before purchasing it.
- Prevent the infant carrier becoming trapped or weighed down by luggage, seats and/or slamming doors.
- Always cover the infant carrier when exposed to direct sunlight in the car. Otherwise the cover, metal and plastic parts could become too hot for your child's skin.
- Keep all plastic packaging materials out of reach of your child to avoid the risk of suffocation.
- The infant carrier only can be installed at the rear of the vehicle.
- Make sure to follow manufacturer's instruction on the infant carrier base installation with the car safety belt.

### care and maintenance

- Always store in a clean and dry place.
- Clean the frame by wiping with a damp cloth.
- Do not use abrasives, bleach or strong detergents.
- Spot clean fabrics with warm water (no hotter than 30°C) and mild soap.
- Ensure fabric is dry before storing.
- Do not leave in direct sunlight.
- Please secure the fabrics with safety belts when not using.

#### IMPORTANT:

The trim (fabric cover) is a safety feature. Never use the child seat without it. Don't put your child's safety at risk by using other replacement trim, as this could stop the child seat from protecting your child as well as it should.

#### WASHING INSTRUCTION:

- The trim is removable and washable at 30°C.
- Line dry only.
- The cradle, safety belts, and plastic component can be spot washed with warm water and mild soap.
- Don't use abrasives, bleach or strong detergents.

Machine wash, cold

Do not bleach

Dry clean, any solvent  
except trichloroethylen

Do not tumble dry

Do not iron

### safety notice

#### Safety notice:

Install this restraint in a vehicle with shoulder/lap belt, and ensure it is installed on the passenger seat NOT equipped with an airbag.

Always keep the restraint rearward-facing (in opposition to the driving direction) on the rear passenger seat.

**Warning:** The infant carrier can only be installed at the rear of the vehicle.

**This capsule is applicable for group 0+ weighing 0-13 kgs, aging from newborn to 12 months.**

#### **WARNING:**

To be used only in a rearward-facing position until approximately 12 months or 13 kg.

## infant capsule and base

### installing with no base

**Warning: Must not install infant capsule in the seat with an airbag. Make sure the infant capsule is close against vehicle seat.**

1. Using the car safety belt.
2. Feed the lap belt of vehicle through the belt path hooks in front of child safety seat (**Figure 1**).

**NOTE:** The vehicle lap belts must thread through the belt hooks on **BOTH** sides of child infant capsule.

3. Wrap the vehicle sash belt around the back of the infant capsule and thread through the central hook. (**Figure 2**).
4. Click buckle into place.

5. Adjust the child safety seat until the angle indicator is blue, and first keep lap belt of vehicle seat tight and then make sure the diagonal belts of vehicle seat restrain the infant capsule firmly (**Figure 3**).

# scout

## infant capsule and base

### installing with no base

1. To lengthen the shoulder harness straps, press the harness release lever and pull the shoulder straps at the same time.

2. Press the red button in the buckle to release the harness shoulder straps.

3. Lay the harness shoulder straps on the seat as shown.

# scout

## infant capsule and base

### installing with no base

4. Place the shoulder harness straps on child's shoulders as shown.
5. Lock the buckle (**Figure 5**).

6. Check harness height. The shoulder straps must be in the slots which are nearest to the child's shoulders, but not lower than the child's shoulders.

7. Pull the central adjuster belt to tighten the shoulder strap length (**Figure 7**). To loosen, press the harness release lever and pull the shoulder belts at the same time (**Figure 1**, page 11).

# scout

## infant capsule and base

### installing with no base

8. Please note, there are two shoulder heights to suit different heights of children.

9. To adjust height of shoulder harness straps, take the belt out of the connector and adjust to your desired position. Then reconnect the belt with connector.

10. Infant insert is only applicable for the child weighing **0-6 kgs**. If your child is above this weight, please remove the infant insert.

# scout

## infant capsule and base

### installing the base

#### step 1: install the base

1. Pull out car vehicle safety belt (**Figure 1**).

2. Feed the lap belt of vehicle through the gap in front of the base (**Figure 2**).

3. Click buckle into place (**Figure 3**). Make sure you hear a “click” when locking the buckle.
4. Pull belt to remove slack for a tight fit.

# scout

## infant capsule and base

### installing/removing the capsule

#### step 1: install the child safety capsule

1. Put the child safety seat onto the base, ensuring the iron hooks are over the top of the hook attachment points. Push down and you will hear a “click”.

2. Wrap the car vehicle sash belt around the back of the infant capsule and thread through the central belt path hook (**Figure 2**).

#### step 2: removing the child safety capsule

3. Pull the vehicle sash belt off the child safety seat, then pull the release handle to release the child safety seat from the base.

# scout

## infant capsule and base

### removing trim

1. Press the red button in infant capsule.

2. Remove the shoulder belt protector from shoulder harness straps.

# scout

## infant capsule and base

### removing trim

**Seat disassembling:** Remove trim from the seat by separating 6 press studs.
