IMPORTANT SAFETY WARNINGS

Failure to read and follow this manual and the safety warnings herein may result in serious bodily injury or death, or in a fire or an explosion causing damage to property.

Important

Check with your local council regarding fire bans before using your brazier.

Check with your local council regarding air quality regulations.

- ⚠ **IMPORTANT!** Only use this brazier on a flat, level non-flammable surface or ground.
- ⚠ This product is for **OUTDOOR USE ONLY**. **NEVER** use in an enclosed space such as a carport, garage, veranda, covered patio, or under an overhead structure of any kind.
- ⚠ **ATTENTION!** This brazier will become very hot. Do not attempt to move it during operation.
- ⚠ **WARNING!** Keep children and pets away from the brazier when in use. Any modification of this firepit may be dangerous.
- ⚠ When positioning, ensure the brazier is a minimum of 1 metre from flammable items or structures. Do not use within 4m of gas cylinders, and keep away from vehicles.
- ⚠ Do not overfill metal tray with burnable products. Never handle hot parts with unprotected hands.
- ⚠ **NEVER USE INDOORS.** If used indoors, toxic fumes can build up and cause bodily injury or death. Only use outdoors in a well-ventilated area.
- ⚠ **ATTENTION!** This brazier should not be used under any overhead combustible material.
- ⚠ **NEVER** leave this brazier unattended when in use.
- ⚠ Do not add starter fluid or charcoal impregnated with starter fluid to warm or hot fires.
- ⚠ Do not remove ashes until all wood is completely burnt out and the brazier is fully cooled. Do not use clothing with long or loose sleeves when operating the brazier.
- ⚠ Do not use the brazier in high winds. Do not touch the brazier with your hands to check if it is hot.
- ⚠ Do not use water to control flare-ups or extinguish charcoal. Always extinguish your brazier when not being monitored.
- ⚠ Do not dump hot coals where they may cause a fire hazard. Do not store away or cover the brazier until all embers are extinguished and removed, and the brazier is fully cooled.
- ⚠ This brazier is not intended to be used in recreational vehicles or boats.
- ⚠ **CAUTION!** Do not use petrol, spirit or lighter fluid for lighting or re-lighting the brazier! Use only commercially made firelighters.
- ⚠ This brazier is for use with dry, seasonal hardwood. It will burn hotter, more completely and create less smoke.
- ⚠ Do NOT burn manufactured logs, driftwood, trash, leaves, paper, cardboard, plywood, painted or stained or pressure treated wood. Avoid using softwoods such as pine or cedar that can throw sparks.
- ⚠ **CAUTION:** It is not recommended to use this brazier on a wooden or other combustible surface or any surface that is not entirely resistant to high heat. However, if you intend to use this item on a wooden deck, other combustible surface, or any surface that is not entirely resistant to high heat, **you must** use a non-flammable and heat resistant material such as concrete pavers, brick, or stone between the brazier and the surface.
- ⚠ If you start or see a fire that is out of control, call 111 from a safe place.

ASSEMBLY:

Parts Identification

- 1 Cooking Grill x1
- 2 Fire Basket x1
- 3 Leg x3
- 4 Ash Tray x1

Hardware

- A M6x12 Bolt x3
- B M6 Nut x3

Bolt the 3 legs to the underside of the Fire Basket using the supplied screws and nuts.
Place the completed Brazier on the Ash Tray.
When wanting to cook on the brazier, place the Cooking Grill on the top of the Fire Basket.

Note: Remove the cooking grill using the handle while adding wood.

CLEANING AND CARE

This Brazier should be thoroughly inspected and cleaned on a regular basis. Occasional cleaning is necessary to preserve the clean appearance of the Brazier.

WARNING! Risk of burns! Allow the brazier to cool down completely before cleaning it. Never pour cold water directly on the coals to extinguish. This may cause burns or scalding. If necessary, use sand or fine spray of water.

1 A rinsing cloth, water and some washing-up liquid is sufficient for normal cleaning processes. Do not use any scouring agents.

Note: To make it easier to clean your Brazier after use, line the Ash Tray with aluminum foil, shiny side up.

2 Clean the grill and grilling tools in hot soapy water as soon as possible after use. Dry thoroughly and store in a dry place.

NOTE: Do not leave your brazier outside unprotected. If you do not have a protective cover for your brazier, then please store it in a dry location to maximize product life.

After a period of storage or non-use, check for signs of damage and creosote build-up. Do NOT operate until any necessary repairs and/or cleanup are carried out.
