Always place the product on a flat, steady and stable surface

## Assembly Details

**10 MIN**

Approximate Assembly Time

1 Persons of Assembly

FLOOR AREA  
2.0M x 2.0M

Required Assembly Space

## Tip before you start

1. Please check that all parts are present before you start the assembly of your furniture.
2. For ease and speed of assembly, we recommend that before you commence each step of the assembly, that you identify all the parts required for that step.
3. For larger items, please ensure that you have sufficient space and people (as indicated on page 1) to assemble your product safely.
4. We recommend that, where possible, all items are assembled near to the area in which they will be placed in use, to avoid moving the product unnecessarily once assembled.
5. For the protection of your furniture, we recommend that the product is placed on a protected surface during assembly to prevent any damage.
6. During assembly please take care not to over-tighten any fittings, as this may damage the product. Do not use power tools.
7. Always place the product on a flat, steady and stable surface.
8. Do not stand on the product. Do not use the product as a stepladder.
9. This product is intended household use only as it is a non-industrial product.
10. Please use caution and care when lifting the product to avoid personal injury and/or product damage.

# Care and maintenance

## PLASTIC (PP) CARE INSTRUCTIONS

- To keep garden furniture fresh for years, you need to clean and store it well in the off-season.
- Plastic garden furniture is easy to maintain and clean, not afraid of moisture and mold, but she doesn't like direct sunlight, heat or cold. In order to remove dust and dirt, furniture needs to be washed with warm water and soap or detergent, and then washed with paper towels or rags.
- Avoid using abrasive chemicals, offensive detergents, abrasive tissues and sponges. Plastic becomes brittle at low temperatures, so its use is not recommended.

## CUSHION CARE INSTRUCTIONS

- Our cushions contain a UV treatment to protect them against deterioration. Some fading will occur over time.
- To clean cushions wash with mild soapy water and rinse thoroughly with fresh water
- To avoid stains, remove spills promptly.
- Do not use solvent type cleaners.
- Do not machine wash, dryclean or tumble dry.
- Never store cushions when wet.
- We recommend that all cushions are stored inside to extend their life.

**We recommend storing furniture under cover, out of direct sunlight and using furniture covers when not in use and for protection during the winter months.**
